Emergency Management Agency

Local Officials Resource Directory

2013-2014

315 High Street, Suite #670 – Hamilton, Ohio 45011

(513) 785 – 5810

Preface Message

The discipline of Emergency Management goes back to the Civil Defense program of the late 1940's and 1950's. In the 1970's, with a softening of the threat of nuclear warfare between the superpowers, the Civil Defense program added planning and preparedness for natural hazards to its responsibilities.

With this new area of concern, evolved the Disaster Services Agency (DSA) in the early 1980's and eventually becoming today's Emergency Management Agency (EMA). Today, emergency management focuses on the process of preparing for, mitigating, responding to and recovering from an emergency.

Emergency management is a dynamic process. Every disaster scenario is unique in its cause and impact. It is the task of the Emergency Management Agency to plan for the unplanned. Planning, though critical, is not the only component. Training, conducting drills, testing equipment and coordinating activities with the community are other important functions.

The Butler County Emergency Management Agency (EMA) is authorized by Ohio Revised Code to coordinate and administer countywide all-hazards emergency management and disaster preparedness functions for Butler County and its political subdivisions.

Through the EMA, disaster preparedness and public safety related emergency management activities are coordinated to serve and protect the public. Butler County EMA is concerned with all natural and manmade hazards including international and domestic acts of terrorism and homeland security functions.

Emergency response recognizes that a government-centric approach to emergency management is not enough to meet the challenges posed by a catastrophic incident. The Whole Community approach to emergency management reinforces the fact that the EMA is only one part of an emergency management team; we must leverage all resources in order to meet the needs of the entire community.

Effective emergency management relies on integration of emergency plans at all levels of government and non-government. The composition of the community and the individual needs of community members, regardless of age, economics, or accessibility requirements, must be accounted for when planning and implementing disaster strategies.

When the community is engaged in dialogue, it becomes empowered to identify its needs and the existing resources that may be used to address them. Collectively, we can determine the best ways to organize and strengthen community assets, capacities and interests. This allows us to expand our reach and effectively build, sustain and improve our capability to prepare for, protect against, respond to, recover from and mitigate all hazards.

Jeff Galloway
Director

County-wide emergency information phone number

The Butler County Emergency Management Agency and the Butler County Sheriff's Office have established a County-wide emergency information hotline for emergency phone messages.

The number to call is **513-785-5800** for a current phone message on the County status during an emergency or other event.

This emergency hotline will be available 24 / 7 and messages will be updated as needed. The phone line will allow multiple calls at once in the case of a large volume of people needing information.

Information maybe County-wide or for a specific location or emergency.

Citizens of Butler County are encouraged to utilize this service and not call 911 for non-emergency information.
